TECHNOVATION CAMEROON 2017

Team Cheetas

The name of our projet is JoKamer, it is a mobile application to find an employ, a training, a job. The access on informations which concern employ and the opportunities to post a candidature are the principal challenge for the unemployed.it is for what we have decide to create JobKamer, to bring together job-seeker and baker. jobKamer contribute in reduice rate of employement which accelerate poverty by the description of situation vacant, by presentation many occasions to postulate directly on line and give CV. In plus the user who can be men or women will receive the notifications by mail/sms in case of new associated his profile.
